

COMPARISON BETWEEN 100% GRASS-FED COWS AND ORGANIC COWS

Certified Organic Pulse Whey Protein:

USDA Certified Organic Requirements

- Must graze a minimum of 120 days per year
- Must be fed no more than 70% dry feed per year
- Organic cows must be fed and managed organically for 1 year prior to producing milk
- No GMO's, pesticides, hormones, or chemicals

Pulse Whey Protein

- 100% grass-fed cows that graze year round on natural pastures
- 100% Grass-fed means they can never be given grain through the entirety of their lifetime
- No GMO's, pesticides, hormones, or chemicals

*Grass fed cows produce 2-4 times the amount of Omega 3 fatty acids and 3-5 times more CLA than grain-fed cows
